

New Construction Coordination for Joint Wild Horse & 3 Canyons HOA Property Owners

The following coordination flow chart of Wild Horse/3 Canyons collaboration was created under the assumptions:

1. This coordination flow chart/process applies to Wild Horse HOA properties which connect directly to 3 Canyons Road with a private driveway. Properties with driveways connected to S. Arab Ct, S. Mule Pl or S. Welsh Pl streets coordinate only with Wild Horse HOA.

2. The interim flowchart/process is for new construction of homes, and home modifications to existing joint homeowners homes. These homeowners are to submit request according to WH HOA AC Rules and Guidelines with WH AC providing guidance and approvals according to WH CCRs.

Wild Horse (WH) HOA will inform 3 Canyon (3C) HOA of any increase of size under roof for existing homes or new construction of joint HOA property owners. This notification will be done via WH AC Chair.

Wild Horse Lots located in 3 Canyons HOA area that connect directly to 3 Canyons Road must submit their road cut plans to 3 Canyons Road Committee and Master Design Committee for road connection review and approval.
